## Manufacturer's Certification Statement

Dear Customer,

The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 includes tax credits for qualifying window and door replacements, or add-ons placed in service in 2011.

The taxpayer is entitled to a tax credit in the amount of 10% of the cost (not including installation/labor costs) for all window and door replacements which meet the following requirements:

1. The windows and doors must have a U-Factor  $\leq$  .30 and SHGC  $\leq$  .30.
2. The windows and doors must be installed and ready for use between January 1, 2011 and December 31, 2011.
3. The products must be for the taxpayer's principal residence
4. The maximum amount that can be claimed for the year 2011 for most qualifying home improvement products is up to \$200 for qualifying windows and up to \$500 for qualifying doors.
5. Homeowner may receive no more than a total of \$500 (see line 4).
6. The taxpayer must have a Manufacturer Certification Statement to qualify.
7. The taxpayer should save their receipts and the MCS. We also recommend saving the NFRC label from one of the windows or doors showing the U-factor and SHGC.
8. The improvements made in 2011 will be claimed on your 2011 taxes (filed by April 15, 2012) — use IRS Tax Form 5695 (2011 version) — it will be available early 2012.
9. Windows and Doors qualify for existing homes only, not new construction (except add-ons).
10. Must be Energy Star Qualified.

Please view the following EnergyStar.gov webpage if you have any more questions about the tax credit:  
[http://www.energystar.gov/index.cfm?c=windows\\_doors.pr\\_taxcredits](http://www.energystar.gov/index.cfm?c=windows_doors.pr_taxcredits)

**The Showcase products set forth on the following page qualify for the 2011 Federal Tax Credit described above.**
