Why Showcase?

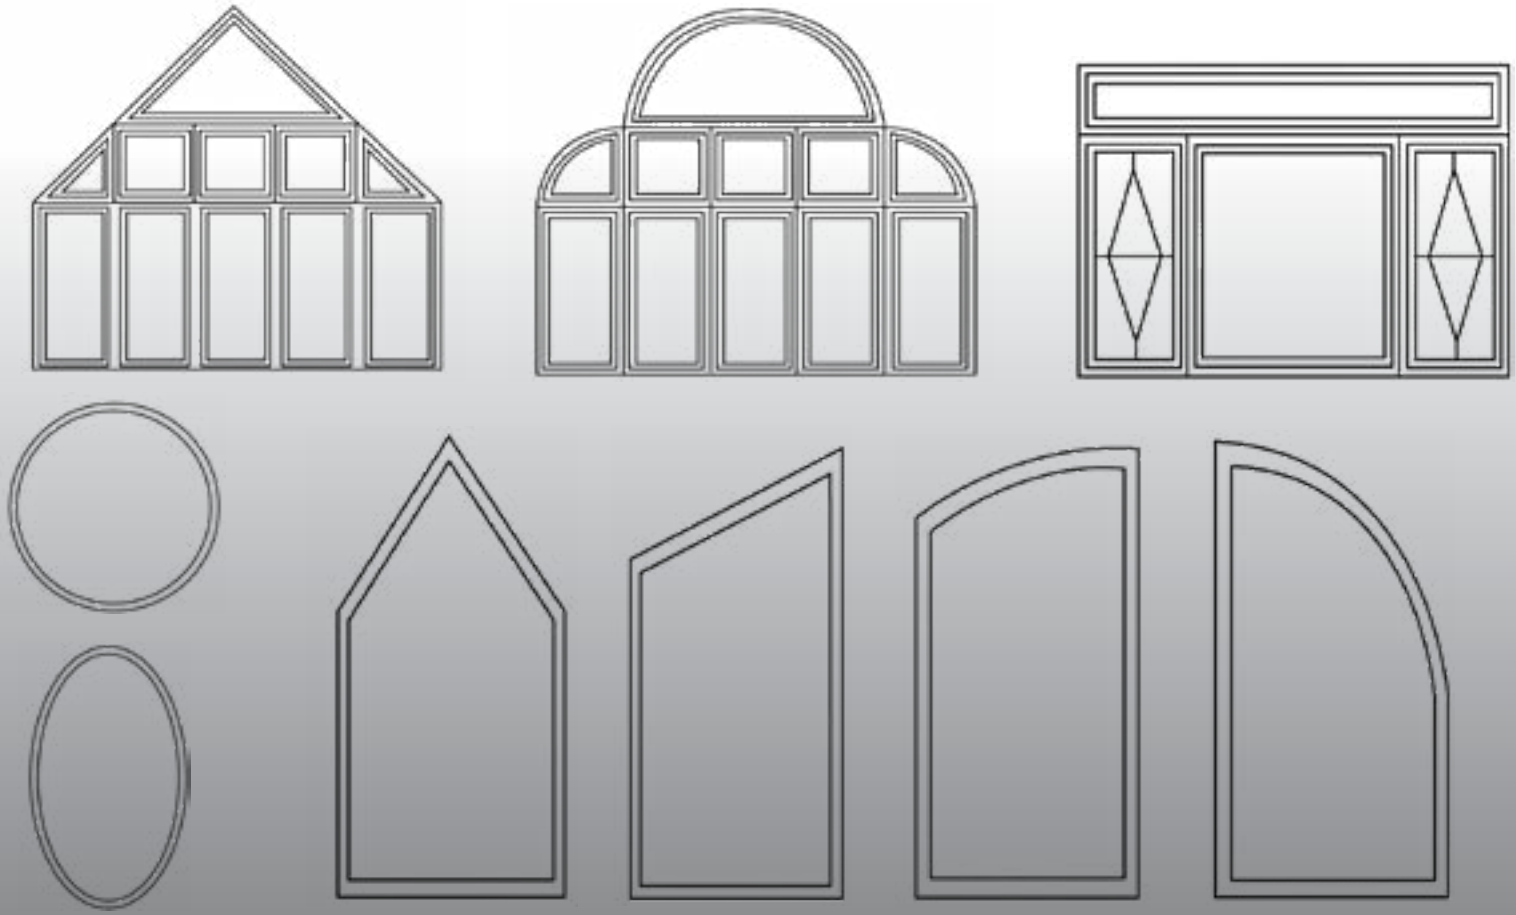
The Showcase Window and Door Company was founded in 1994 in Houston, Texas. We custom manufacture quality windows and patio doors for dealers in the Gulf Coast states of Texas, Louisiana and Mississippi.

Showcase has been at the forefront of the vinyl window business since inception. We were one of the first manufactureres to offer both vinyl windows and doors and LoE glass in the state of TExas. Our vinyl windows and doors are highly energy efficient and provide a lifetime of worry-free performance. We also produce hurrican Impact Widnows which are specifically designed for the weather extreems along the Gulf Coast.

We take great pride in our flexibility in serving our dealers. Showcase can product virtually any shape and size window you need. Basically, you design it-we'll build it.

Manufacturing Excellence

We manufacture a range of window and door products at our expanded facility. Showcase employs state-of-the-art equipment, along with lean manufacturing and continuous improvement techniques. This ensures that our products delivery both superior quality and long-term performance.

Proven Quality


For nearly three decades, Showcase vinyl windows and doors have set the standard for quality and service. In addition to our quality vinyl extrusions, Showcase Window and Door features Cardinal double-strength LoE glass with argon gas.
